**The Winners will be given Prize Money of US\$1000, \$750
and \$500 respectively plus a Certificate.**

The three Winners for the Birthday Card/ Poster Contest

#1

Description of the Design

People with Disabilities (PWD) are combating stigma and breaking down barriers to full inclusion, while becoming more proudly visible in the community. This design implies PWD, like other minorities, are viewed as unique and also as a natural part of diversity. They have something to contribute to society, and should be respected and openly welcomed.

The role of persons with disabilities

I am a Deaf, female, mother of two hearing children, and visual artist. Moreover, I studied a Master's Program in International Development, with specific focus on art and disability. I have been observing persons with diverse disabilities for many years and created the design based on those observations.

The three Winners for the Birthday Card/ Poster Contest

#2

Description of the Design

• Greetings:

English: Hopefully it remains a place that always gives hope to people with disabilities.

Indonesia: Semoga tetap menjadi wadah yang selalu memberikan harapan untuk orang-orang dengan disabilitas.

That design depicts The Greeting of the 100th Anniversary of Rehabilitation International, especially in Asia Pacific countries, from people with disabilities such as the blind, deaf, and others.

The role of persons with disabilities

The role of persons with disabilities, including children, women and girls in making design is very important so that they can get the same rights as normal people and can be accepted by the general public.

The three Winners for the Birthday Card/ Poster Contest

Description of the Design

As a person with special needs, we believe that all humans play their part in our community, even minorities. PWDs have their purpose in this life, based on their profession. Our purpose in this life does not run far from the others. PWDs, especially children and women, are still one of the main parts of shaping a country by law and part in shaping a country by law and by nature. Without one another, surely we can't truly function as a society. Like bamboo and the river bank, one can't function without the other. In our design, we use the RI logo as a symbol of "earth", which represents our society, using the background colour of reddish pink — almost the same colour are used as an identification card for PWDs in Malaysia, a character who holds the RI logo upright, which indicates that PWDs plays a part in our earth, our society, our community. Characters are designed with different types of disabilities and skin colours, indicating that PWDs are diverse, and not only centered in one or two countries. Therefore, we must work together to serve, help, and grow with PWDs. We are one unit of the cell, without one another, we're just zero.

The three Honorable Mentions for the Birthday Card/ Poster Contest

Description of the Design

Having the purpose of inclusiveness, the poster combined work from both in-house designers and disabled artists, to embrace all people irrespective of race, gender and disability, or other needs. It is about giving equal access and opportunities for disabled people to participate in the celebration of this momentous occasion.

The role of persons with disabilities

The slogan – “Together, leaving no one behind, in disability-inclusive and rights-based progress”, was a memorable phrase used in the Rehabilitation International Asia & Pacific Regional Conference in 2019, hosted by the organization. We wish to carry forward the spirit and hope that the selection and maintenance of this slogan is the “master principle”, considering the social awareness for disabled people.

The three Honorable Mentions for the Birthday Card/ Poster Contest

Description of the Design

The Logo depicts all types of persons with disabilities who, until now, still require attention from all levels of society to create an inclusive world without discrimination.

Geeting Message: A century of tireless efforts towards a more inclusive world for persons with disabilities

Birthday Card/ Poster Design

Description of the Design

1. Photo-1 (top-left): The YPAC ladies (members of the Executive Board) gathered around the table displaying products of handicrafts made by children with disabilities, whom from December 2022 have been attending regular vocational training classes (online and offline at the Creative House of YPAC Nasional located at the outskirts of Jakarta, South Tangerang City). The handicrafts (acrylic paintings on T-Shirt, eco-bags, cushion covers, table clothes, etc – besides the decoupage technique in turning used items into new ones by covering them with beautiful coated flowers motives of tissue papers), are on high demand now. YPAC Nasional is very proud as the children now can earn their own monies for their needs.

Birthday Card/ Poster Design

- 2.Photo-2 (top-right): A group of youths and chaperons in-front of a flour-produced building, completing a pastries making class. YPAC Nasional has facilitated these 24 special children, supported by relevant donors, with transportation cost, meals, as well as certificates for them to pursue a culinary startup. Many of them have directly practiced their skills by receiving orders from home for their pastries product and deliver them through the couriers.
- 3.Photo-3 (middle-left): The children performing a traditional dance in greeting the guests whom visited their school. The 20 YPAC Secretariats located in the 18 big cities in Indonesia, encouraging the youths to develop their talents as a way to enhance their confidence. Positive results have been made through the approach.
- 4.Photo-4 (middle-right): The offline training for youths with disabilities started to be provided again at the IT Training Centre of YPAC Nasional at the central Jakarta, early this year, after providing a few online trainings during the pandemic. Encouragement towards initiating a startup for the gained skills, such as becoming a Content Creator, Youtuber, etc, may be further added with a regular mentoring until they are successful.
- 5.Photo-5 (bottom-left): YPAC Nasional joined the Global IT Challenge in 2014, and since then, there are many Indonesian GIRC winners. A proof that nothing is impossible, when you put your mind in developing/completing the given tasks based on your gained skills. Indonesia was awarded the highest awards as the Global IT Leader, twice: in 2015 through Dyan, a male youth with visual disabilities, and in 2018 through Fayza, a female youth with hearing impairment.
- 6.Photo-6 (bottom-right): A regular conference amongst the 20 YPAC Secretariats has been conducted every 3 years, to consolidate ideas as well as a platform for the new volunteers to catch-up with the existing programs. Usually attended by approximately 125 participants (members of the Board of Trustees, Board of Supervision, and Board of Executive), for a 3-night conference with Focus Group Discussions as well as receiving guidance from the seniors, and keynote speakers, such as The Indonesian Minister of National Education whom attended the recent conference in the city of Malang, East Java, in August 2022

Birthday Card/ Poster Design

Description of the Design

- LEFT: 100th Anniversary Birthday Card. +++A colorful illustration of five stylized children dancing in front of opened palms. Some of the children have mobility aids. The background is a grey – gold gradient. Text at the bottom reads “Congratulations On Your 100th Birthday” in red and blue, and below that, “Best wishes for 100 years” in Odiya.
- RIGHT: 100th Anniversary Birthday Card. Colorful illustration of stick figures of different disabled children holding hands. An orange stick figure of a tall girl with a bow and pony tail holds a cane on her right hand. She is holding hands with a blue stick figure of a boy. He is holding hands with a pink stick figure of a girl with a bow in her hair. She is holding hands with a green stick figure of a boy sitting in a wheel chair. He is looking back towards a purple stick figure of a girl who holds crutches and is facing the rest of the other stick figures. They are dancing holding hands against a sunny background filled with wild flowers and butterflies. The flowers and butterflies are faint. On the right top text in pink reads ‘Congratulations on your’. Below in green reads ‘100th’ and below in pink reads ‘Birthday’. Below another text in brown in Odiya translates ‘Best wishes for the 100 years’.

Birthday Card/ Poster Design

--- I envisioned this design as hope of creating a better world for persons with disabilities – “Disability, Diversity and Inclusion”.

Birthday Card/ Poster Design

Description of the Design

The first element is the background, which consists of the sky and kayonan. The kayonan represents the limitless dreams, while the sky symbolizes the earth and nature, along with its contents. The word "INDONESIA" is also featured, along with various pictures, representing the country's diverse tribes, cultures, and traditions that are different but still united. Additionally, there are images of people with disabilities, as well as those without, highlighting that everyone has their own strengths and weaknesses. Therefore, it is important to use our strengths as a motivation for everyone.
